

COMING TO AN UNDERSTANDING AGAIN.

MOST REMARKABLE CAMPAIGN  
IN NEW YORK'S HISTORY ENDS.

Ten Organizations Allied to Defeat the Tammany Ticket, Which Is Headed by an Anti-Tammany Man for Mayor—Fusion Forces Claim Seth Low Will Have Majority of From Twenty to Sixty Thousand in the Five Boroughs.

## BROOKLYN VOTE WILL PROBABLY DECIDE THE ELECTION.

## REPUBLIC SPECIAL.

New York, Nov. 2.—The most remarkable local campaign ever waged practically came to a close to-night. Opposed to a united Democracy are the Republican, Citizens' Union, Greater New York Democracy and seven other organizations of less importance, making ten in all, with Doctor Seth Low, former president of Columbia College, as their candidate for Mayor.

Edward M. Shepard of Brooklyn, who for many years opposed Tammany Hall, is the candidate of the Democracy.

Victory is claimed by both sides, the fusionists claiming that the intolérable rule of Deputy Police Commissioner Devery, his connection with the gambling combine and the awful conditions prevailing in the "red-light district" are factors which will result in the overthrow of the present Democratic rule of the city. They allege, also, that the present Mayor, Robert A. Van Wyck, is responsible for the conditions which prevail, and that the people are so wrought up that they will tolerate it no longer.

The fusionists claim that Mr. Low will have a majority of from 20,000 to 30,000 in the five boroughs.

"Shepard No Tammany Man." On the other hand, the Democrats claim that Mr. Shepard is not the candidate of Tammany Hall; that Tammany was forced to accept him as the candidate of the Brooklyn Democracy or go down to defeat. Mr. Shepard is and has always been an avowed enemy of Tammany, and only recently, in speaking in the Wigwam, on Fourteenth street, said very plainly that he stood where he always had, intimating very

plainly that Tammany might expect no favors at his hands.

Shepard is acknowledged by his political opponents to be a man of the very highest character, and has a host of friends among independent voters, with whom he has fought for years. It is this element which is depended upon to bring about the defeat of the fusion candidate.

There can be no denying that the Democratic ticket is seriously handicapped in the selection of Van Wyck for the office of Supreme Court Judge. The latter's connection with the notorious Ice Trust is still fresh in the minds of the masses, and he can scarcely pull through.

The danger to the Democratic ticket lies in the fact that in "scratching" Van Wyck, those who intend to vote for Shepard will invalidate their ballots through error, and again, many who have grown tired of the maladministration of the Police Department will, as a rebuke to Deveryism, vote the entire fusion ticket.

**Election Hinges on Brooklyn.** On the whole, the Democracy has never had a harder fight on hand, and while the leaders claim that they will win by from 20,000 to 30,000, these figures seem to be strained.

Seth Low is strong enough to carry King's County, and a great deal depends upon his majority in the borough of Brooklyn, where he has never been before.

Some enthusiastic fusionists do not hesitate to say that he will carry the borough by 40,000, but this is highly improbable, although it would surprise no one if there was a landslide to Low, so aggressive has the campaign been conducted.

Forecasting the likely use. The people are aroused as they have never been before, and there has never been a contest before in which there was so much popular interest manifested.

ELECTIONS WILL BE HELD IN  
ELEVEN STATES TUESDAY.

Forecast of the Results Based Upon a Careful Review of the Situation by Special Correspondents of The Republic—Booker T. Washington Incident a Factor in Virginia—Pennsylvania in Doubt.

## REPUBLIC SPECIAL.

New York, Nov. 2.—Elections will be held in eleven States next Tuesday. Ohio will elect a Legislature, and it is practically conceded that Governor Nash (Rep.) will be re-elected, while the Legislature is very much in doubt.

New Jersey will elect a Governor and Legislature, and conditions in that State are just the reverse of those in Ohio. The governorship is very doubtful, with the chances favoring James M. Seymour (Dem.), while the Legislature will be strongly Republican.

Virginia will elect General Montague (Dem.) Governor by not less than 30,000, and will have a Democratic majority in both branches of the Legislature. The action of President Roosevelt in inviting Booker Washington dinner has entered strongly into the campaign.

Illiteracy of the negroes in Maryland will, in all probability, elect a Democratic Legislature, which will return Arthur P. Gorman to the United States Senate, while the city of Baltimore may continue in the Republican column.

Massachusetts will re-elect Governor Crane (Rep.), but by probably largely reduced plurality. The Democrats hope to reduce the vote of last year by at least 50,000, and look for a gain in the Legislature, which will be strongly Republican.

Iowa will elect A. B. Cummins Governor, but the Democrats claim that they will cut the Republican plurality of last year in half.

Rhode Island is surely Republican in all branches of the Government.

New York will elect a Republican Legislature, but the interest is centered in the majority contest in New York City, which is so close that predictions are looked upon as reckless statements. It is anybody's victory and not until the vote is counted would it be safe to hazard a guess, notwithstanding both sides claim victory by approximately 35,000.

Nebraska is a very doubtful State, but the elections there are confined to Judge of the Supreme Court and Regents of the University and very little interest is manifested in the outcome.

Mississippi's election is a free-for-all con-

test among several Democrats for Secretary of State and State Treasurer.

In Pennsylvania the recent element of the Republican party has fused with the Democrats and threatens to administer a crushing blow to Matt Quay. They have nominated to the "Union party" ticket Harman Yerkes, a Democrat, for Justice of the Supreme Court and Eliza Coray, Jr., an anti-Quay Republican, for State Treasurer, and the best advice would indicate the election of the fusion candidates.

**TO FILL VACANCIES.**

**Election in Mississippi Involves an Important Question.**

Jackson, Miss., Nov. 2.—On November 5 a special election will be held to fill vacancies in the offices of Secretary of State and State Treasurer, the former being vacated by the death of the late incumbent and the latter by resignation.

For Treasurer there are two candidates—G. W. Carlisle, the temporary appointee, and M. M. Evans. The indications are that the former will be elected. There are five candidates for Secretary of State—J. W. H. George, Jr., son of the late incumbent; A. H. George, Jr., son of the late incumbent; C. E. H. Dial of Meridian. There was no party nomination, and all these Democrats are entered in a free-for-all. The chances are that J. W. Power, Jr., will receive a plurality.

However, the issue has been raised that to secure a majority of the popular vote, instead of a plurality, and if this is sustained the election will in all probability be thrown into the House of Representatives to be decided.

**NO DOUBT IN VIRGINIA.**

**Booker Washington Incident Figured in the Campaign.**

Richmond, Va., Nov. 2.—The gubernatorial campaign in Virginia is virtually closed and the Democrats witness the approach of election day with confidence, while the Republicans have high hopes of cutting down the usual heavy majority against them and probably of electing some of their candidates to the Legislature.

The feeling, aroused by President Roosevelt's action in entertaining Booker T.

Washington at the White House is having an important effect on the campaign, to the disadvantage of the Republicans. The Democrats have in the field one of the strongest tickets nominated in years. Attorney General A. J. Montague, the nomination for Governor, is recognized as one of the ablest of the younger branch of the Democratic party. An impartial forecast, after a careful study of conditions, indicates that the Democrats will elect their gubernatorial ticket by a majority of at least 20,000, and will have a large majority in both branches of the Legislature.

## OHIO DEMOCRATS HOPEFUL.

May Succeed in Defeating Foraker for the Senate.

**REPUBLIC SPECIAL.** Columbus, O., Nov. 2.—The most important feature to the country at large in the general election in this State next Tuesday is the election of a Legislature which will choose a United States Senator to succeed Senator J. B. Foraker.

While it is generally conceded by both parties that Governor Nash will be re-elected by a plurality of not exceeding 20,000, it is not so certain that the Republicans will be able to carry twelve of the doubtful districts and counties to have a working majority.

There are six tickets in the field this year—Republican, Democratic, Prohibition, Union Reform, Socialist and Social Labor—and each has a candidate for Governor.

## NEW JERSEY IN THE BALANCE.

Both Sides Confidently Predict a Gubernatorial Victory.

**REPUBLIC SPECIAL.** Trenton, N. J., Nov. 2.—New Jersey is in the balance, with both sides confidently predicting a gubernatorial victory. The Republicans estimate a plurality of practically 8,000 for Franklin Murphy over James M. Seymour. At the same time an estimate from Democrats places Mr. Seymour's plurality at 5,000.

Democrats base their hopes upon the fact that Edwin W. Crane was defeated by only 5,400 three years ago and the claim that Mayor Seymour is several thousand votes stronger than he was. The party, they say, is thoroughly united and in aggressive fighting trim in the various districts. They will roll up old-time majorities. The Legislature will be Republican.

## LEADING TOPICS

... IN ...

## TO-DAY'S REPUBLIC.

WASHINGTON, NOV. 2.—COLD WAVE FOR OKLAHOMA AND NORTHWESTERS ARKANSAS. TEMPERATURE WILL FALL TO FREEZING OR SLIGHTLY BELOW BY MONDAY MORNING. WITH HIGH NORTH WINDS. FRANKFELD.

## WEATHER INDICATIONS.

For Missouri—Fair and decidedly colder Sunday; cold wave at night in central and eastern portions. Monday fair and cold; winds shifting to north.

For Illinois—Colder Sunday, with fair in northern and rain in southern portion. Monday fair and cold; variable winds, shifting to northerly and increasing.

For Arkansas—Rain and decidedly colder Sunday; cold wave at night in northwest portion. Monday fair and cold; winds becoming brisk to high northerly.

For Western Texas—Fair and much colder Sunday. Monday fair, except rain in extreme western portion; brisk to high northerly winds.

## PART I.

3. Secret Societies Begin Winter Work.

SULTAN YIELDS TO  
FRENCH DEMANDS.

Grants Everything That Was Insisted Upon Before the Fleet Reaches Him.

## FRANCE HAS NEW REQUESTS.

Will Now Insist That Turkish Officials Cease Interference With French Mail Bags.

Paris, Nov. 2.—The dispatch of Admiral Gallard's squadron from Toulon to Turkish waters has already had its effect.

The French Foreign Office to-day received a telegram from M. Bapst, Counselor of the Legation at Constantinople, announcing that the Sultan yesterday sent him a message accepting all the French claims, including the Loro claim.

The Porte also telegraphed to the French Minister of Foreign Affairs, M. Delcasse, informing him that the Loro claim had been settled, and that the Sultan had signed an irade accepting the figure fixed by France for the payment of the claim.

M. Delcasse proceeded to the Elysee Palace and to the Ministry of the Interior and consulted with President Loubet, the Premier, M. Waldeck-Rousseau, and the Minister of Marine, M. de Lanessan. He afterwards had another conference with M. Waldeck-Rousseau.

It is understood the French Government also will demand an understanding that Turkey will not renew the recent interference with the diplomatic mail bags.

The French opposition is now menacing the Government because it has sent out the squadron to the Levant without the permission of the Parliament. The correspondent remarks that it is folly to expect that the French Government would deliberately interfere to support the arguments of diplomacy by force of arms.

A great majority of Imperial Frenchmen support the action of the authorities. In fact, the invasion of the brilliant and strange world of the Orient by a French fleet would have fired the popular imagination and relieved the monotony of events by which France has been so long bored.

## ITALY TRIES FRENCH PLAN.

London, Nov. 2.—A dispatch to a news agency from Rome says the second division of the Italian Mediterranean squadron has started for Turkey, with the object, it is said, of counterbalancing the French naval demonstration.

## Guard to Solve Customs.

Paris, Nov. 2.—The Echo de Paris states that it is able to confirm the report that Admiral Gallard was ordered to proceed with his fleet to Smyrna, where he will land a sufficient number of men to seize the customs.

Admiral Gallard, according to the same newspaper, is authorized, if he thinks it good policy, to seize and hold one of the finest islands in the Ionian Archipelago.

## PENNSYLVANIA IS DOUBT.

Democrats and Anti-Quay Republicans May Carry Their Ticket.

Philadelphia, Nov. 2.—Although Pennsylvania gave McKinley a plurality of 38,423 last fall, the result in the State next Tuesday is in doubt, with a strong likelihood that the Democrats and anti-Quay Republicans will elect their ticket.

McKinley, who is a nominee—Harman Yerkes (Dem.), of Bucks County, for Justice of the Supreme Court, and Eliza A. Coray, Jr., anti-Quay Republican, for State Treasurer.

The Democrats and their allies, who style themselves the "Union party," base their confidence on the fact that for the first time in the history of the State there has been fusion of the two parties, with a large and influential Republican element opposed to the domination of Senator Quay.

The record of the last Legislature is also depended upon to aid Yerkes and Coray. Impartial observers of the course of recent political events in Pennsylvania figure out pluralities ranging from 5,000 to 10,000 for Yerkes and Coray. Unless a cyclone of reform strikes Philadelphia next Tuesday, the regular Republican ticket including Quay, for Governor, will be elected.

But by greatly reduced pluralities, probably in the neighborhood of 25,000 or 30,000.

## SITUATION IN MARYLAND.

Barring of Illiterates Perplexes the Political Prophets.

**REPUBLIC SPECIAL.** Baltimore, Md., Nov. 2.—Heretofore it has been a comparatively easy task to forecast the result of an election in Maryland, but owing to new conditions and additional complications, all prophets are, so to speak, "up in the air."

At the extra session of the Legislature the law was so changed as to practically bar out illiterates, the majority of whom are negroes. The emblems were removed, and the names arranged alphabetically. If the negroes or, rather, one-half of the illiterates in the State, can mark the ballot properly, and the Republican leaders claim they can, the State will go against the Democrats.

If, on the other hand, they fail to land the negroes, the Democrats will win. The indications are at this time that Baltimore may go Republican, as will also most of the counties in Western Maryland. Upon the result in Southern Maryland and the eastern shore will depend the complexion of the Legislature. Former Senator Gorman, who wants to return to the Senate, is leading the Democrats, and Senator McComas the Republicans.

## QUESTION OF PLURALITY.

**Massachusetts Democrats Hope to Reduce Republican Vote.**

**REPUBLIC SPECIAL.** Boston, Mass., Nov. 2.—Although both political parties figure in different ways the outcome of the coming State election, the results in both instances foot up about the same, placing Governor Crane's plurality at about 10,000. Last year the total Democratic vote for Governor was 120,000 and the total Republican vote 228,000.

The Democrats now claim to be thoroughly organized and in better shape than at any time since 1886, and predict that the Republican vote will drop to about 175,000.

Of the forty members of the present Senate nine are Democrats. The Democratic State Committee looks for a gain of two, or 30 members of the Legislature fifty-eight are Democrats, and the Democrats expect to increase their numbers to seventy.

## REPUBLICANS CONFIDENT.

**Rhode Island General Assembly Promotes to Remain the Same.**

**REPUBLIC SPECIAL.** Providence, R. I., Nov. 2.—Republicans do not feel any apprehension in regard to the coming election. The Democratic party's candidate for Governor, Doctor L. F. C. Garfield, of Cumberland, has not been making very good headway in the campaign.

There seems to be no doubt that Governor William Greogry, the Republican candidate, will carry the State. The General Assembly will be overwhelmingly Republican, as it has been for the last six years.

SPECIALISTS SAY  
CZOLGOSZ WAS SANE.

Drs. Fowler, Crego and Putnam Make Their Report on the Assassin.

## HE HAD NO DELUSIONS.

No History of Insanity, No Ill Health, and His Conversion to Anarchy Was Gradual.

Buffalo, N. Y., Nov. 2.—Doctors Fowler, Crego and Putnam, the specialists who were required by District Attorney Penny to examine into the mental condition of John Czolgosz, the assassin of President McKinley, have made public their report, in which they state as the result of frequent examinations of Czolgosz, of the reports of his watchers and of his behavior in court, that they have "concluded that he was sane at the time he planned the murder, when he shot the President and when he was on trial."

His first examination was but a few hours after the commission of the crime, and while he was still uninformed of the fate of the victim. During the first three examinations Czolgosz answered questions unhesitatingly. After that, however, he became more cautious and less communicative. He had a common school education, the reports say, and read and wrote well. During the first day's examination he said he planned killing the President three or four days after he came to Buffalo.

The report then recites, in Czolgosz's own words, the assassin's story of the murder of President McKinley. The sanity of Czolgosz was held, the report says, from the history of his life as it came from him. He had been a school teacher, and a law-abiding citizen; till he was 21 years of age, as others of his class, a believer in the Government of his country, and of the religion of his fathers.

After he cast his first vote he made the acquaintance of anarchistic leaders, who invited him to their meetings. He was a good listener, and in a short time adopted their theories. He was consistent in his adherence to anarchy. He did not believe in government, therefore, he refused to vote. He did not believe in marriage, because he did not believe in law. He killed the President because he was a ruler, and Czolgosz believed as he was taught—that all rulers were tyrants, that to kill a ruler would benefit the people. He refused a lawyer because he did not believe in law, lawyers or courts.

"We come to the conclusion that in the holding of these views Czolgosz was sane, because these opinions were formed gradually, under the influence of anarchistic leaders and propagandists. In Czolgosz they found a willing and intelligent tool; one who had no other motive than to follow the lead of his leaders, and who was not a fanatic, but a man who had been taught that all rulers were tyrants, and that to kill a ruler would benefit the people. He refused a lawyer because he did not believe in law, lawyers or courts."

"These facts all tend to prove that the man has an unimpaired mind. He has false ideas, but these are the result of teaching and the result of disease. He is not to be classed as a degenerate because we do not find an stigmata of degeneracy in his systematic delusions. He was sane, because he is in exceptionally good condition of mind, and his capacity for labor has always been good and equal to that of his fellow-citizens."
